Election/Restrictions

1. The Examiner withdraws the Requirement for Restriction/Election filed on 12/23/08 because of the similarity of the claimed inventions in Groups I and II which is pointed out in the Response to Election/Restriction filed on 01/23/09.

Allowable Subject Matter

2. Claims 1-14 are allowed.

Claims 1, 5, and 11-14 are independent claims.

The following is an examiner's statement of reasons for allowance:

As to claims 1, 5, and 11-14, the present invention from the current application discloses a numerical/color processing for deciding correspondence from output points in an output space of m dimensions to input points in an input space of n dimensions wherein m is smaller than n, the numerical/color processing in which “generating an inverse mapping function from the output space onto the input space based on the plurality of limited pairs; and determining at least one element of the input point satisfying the constraint condition, when an output point is given, using the inverse mapping function”.

The closest prior art such as Sasaki et al (U.S. Pub. No. 20030072018 A1), which is recorded on the previous Office Action, including an updated electronic text search, fails to anticipate or render the above underlined limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
